Project Management Professional (PMP) Exam Preparation

North Lake College Business & Training Services is pleased to offer PMP Exam Preparation. This comprehensive 3-day course is specifically designed to prepare an applicant for the PMI's Project Management Professional (PMP) Certification Exam.

This course is taught by Project Management Professionals (PMPs) who are active in the profession. Recently PMI has implemented changes and this course assures you that the most up-to-date information available from the PMI regarding the examination process.

<i>Project Management Knowledge Areas</i>	<i>Process Groups</i>
Integration	Initiating
Scope Management	Planning
Time Management	Executing
Cost Management	Controlling
Risk Management	Closing
Procurement Management	
Communications Management	
Human Resource Management	

The course focuses on how to most efficiently cover the vast range of testable topics.

Study aids include:

- >Breakdown structure of the study plan
- >Terms and Concepts sheet with the most commonly used formulas
- >A mapping of the knowledge areas to process groups
- >A Score Card from the mock exam which documents your strengths and weaknesses by process group and knowledge area

Prerequisites: Prior experience and/or training in project management.

Who should enroll: Those professionals desiring recognition as a Project Management Professional as established by PMI. Prior to taking this course, all participants should have met the requirements for the PMP Exam. Participants should time the taking of this course to within 3-6 months of the anticipated test taking time frame.
