GUIDED PATHWAY: PSYCHOLOGY

For more information, visit www.dcccd.edu/psychology and your academic advisor at your college.

The guided pathway in Psychology combines psychology and sociology courses with core courses to complete the associate degree. An Associate of Arts degree in this pathway prepares you to transfer to a university to earn a bachelor's degree that opens the door to careers such as a psychologist/clinician, psychiatric technician, caseworker, mental health technician, and many others. Due to the brain-based direction of psychology it is suggested that you complete a B.S. degree. However, a B.A. will also prepare you for graduate school and/or employment.

This is an example course sequence for students interested in Psychology. It does not represent a contract, nor does it guarantee course availability. Following this pathway will help you earn an AA degree ⁱⁱ, which will increase your chances of transfer to bachelor's-level programs. Courses that complete the Degree (D) are noted below.
